MADONNA'S ASTROLOGICAL PERSONALITY

PLANETS IN THE SIGN AND HOUSES

This following information relates to where the planets were positioned at the exact time of your birth. Each planet represents a different aspect of the self. The zodiac sign in which a planet is placed indicates the approach or manner of expression we use to obtain our objectives. The birth chart is divided into twelve sections known as houses, and relates to every day activities. A planet placed in a particular House on the birth chart affects the life represented in that house. If a house is empty of planets this does not mean that the area of life it represents is unimportant or devoid of interest. The rising sign or ascendant is our true inner personality and forms the pattern of the birth wheel.
